OUR HISTORY

“Da due generazioni uniamo l’amore per il legno, per il suo profumo e per la sua eleganza, alla migliore tradizione ebanistica italiana: questi due fattori sono il cuore ed il motore della nostra Azienda. Costruiamo mobili per passione: la stessa passione che vogliamo lasciare in eredità alle nostre generazioni future.”

Marco Bellani

“For two generations we’ve been combining the best traditions of Italian cabinet making with a dedicated admiration of wood for its fragrant elegance.

These two factors are the heart and driving force of our Company. Building furniture for passion; a passion we want our future generations to inherit.”

Get lost in our ambitious projects, which are made with precious materials and fine craftsmanship. Live your emotions and passions through accurately handmade and unique pieces of furniture. Surround yourself with new luxurious and elegant furnishings harmoniously wrapped in fine and customised fabrics while rich lacquer and gold and silver leaves offer a colour contrast which enhances their precious manufacture. We create dream environments for you, with no shape and size limits: fine wood floors, elegant boiseries made of wood or soft velvet, precious wallpapers, wall lamps, table lamps and exclusively designed chandeliers, fresh fabrics, which smartly cover chairs, sofas, armchairs, chaises longues and large tables, the unquestioned protagonists of living areas. Our truly Italian products marry tradition to contemporaneity, style to functionality.

Crystal flowers and silk screens are dream-like reflections suspended in time, hidden from the rushing city, which transforms itself at every sunrise. It is a bubble frozen in time, where the outside exchanges with the inside. Comfort and style are protected from the flowing frantic headlights and engines, while extreme technology fuses with each element. Colours are warm and embracing; a mixture of nuances that permeate fine carpets, upholstery and walls, allowing quality wood furniture, worked with craftsmanship and infinite passion, to stand out. Hospitality and elegance are the themes that have guided our idea, soul and essence of the living space. Dark tones underline this project's character of wooden profiles and furnishings. Even light finds an important ally in the dark to create an enveloping and intimate atmosphere.

TOWER

A fascinating palace from the Arabian nights. A unique and strong style pervades every environment, reflecting a determined personality of forms and materials. Innovative functional furnishings are born from timeless valuable materials. We have created a project with great expression, where harmony and balance pervade all environments, from entertainment to more private spaces. Alternating the fine austerity of burl with the wrapping glamor of capitonné upholstery, we tried a new approach to luxury. It is a luxury made of surprising details, but never brazen. Gold is a recurring theme that marks the hours of the day and night with contemporary flowing decorations or with sumptuous but classical decorations. We enter a world where living the dream is living the reality.
