OUR HISTORY

“Da due generazioni uniamo l'amore per il legno, per il suo profumo e per la sua eleganza, alla migliore tradizione ebanistica italiana: questi due fattori sono il cuore ed il motore della nostra Azienda. Costruiamo mobili per passione: la stessa passione che vogliamo lasciare in eredità alle nostre generazioni future.”

Marco Bellani

“For two generations we've been combining the best traditions of Italian cabinet making with a dedicated admiration of wood for its fragrant elegance.

These two factors are the heart and driving force of our Company. Building furniture for passion; a passion we want our future generations to inherit.”

Sunny LA offers more than one unique style. Spanish Revival and Tudor styles easily reside side by side. Finding the right choice of interiors in the midst of this mix can be notable conundrum for design studios. Design culture is celebrated on a daily basis in LA. Interior design becomes the star in a city where home is a red carpet event. Uniqueness becomes an essential basis for standing out enough to become an icon of style. Only the best materials, designs and technology can measure up and only careful attention to every single detail can do this. Patterns, shapes and textures are dexterously combined to create movement with that touch of elegant extravagance that enhances interiors without distorting the city's laid-back style to make a work of art. The Californian spirit is that of infinite freedom and living spaces reflect the personality, interests and dreams of each home. LA has a glamour all its own and here, design plays the leading role.
